EXPERIENCE

Pilipino Association of Scientists, Architects & Engineers

Science Representative

Aug 2016 to Current

- Assisted in organizing FASTERCON, a conference for students to connect with Filipino Americans in tech
- Arranged a 60+ person infosession with Gilead Sciences
- Created interactive science exhibits for hundreds of families at the Bay Area Science Festival

Cal Rotaract

Local Committee Co-Chair

Aug 2016 to Current

- Led a 40 member committee dedicated to providing service all over the Bay Area
- Planned and executed 10 community service events, both small and large scale

PROJECTS

Lectern (LA Hacks 2018) · Mar 2018

<https://github.com/Krazete/lectern>

- Developed a web application that provides a more intuitive lecture playback option
- Outlined the UI and UX of the website, and translated these views into code
- Harnessed Firebase to store users, video transcriptions, notes, and live discussions

Fashare (SB Hacks IV) · Jan 2018

<https://github.com/kenasprec/Fashare>

- Winner of AppFolio's "Best Use of Ruby on Rails" at SB Hacks IV
- Built a web application that allows users to rent and borrow clothes from other users
- Designed both the UI and UX of the website, focusing on a user-centered design (UCD) approach
- Single-handedly translated the designs to front-end code using HTML, CSS, and JavaScript/jQuery

Shape (Cal Hacks 4.0) · Oct 2017

<https://github.com/kenasprec/Shape>

- Created a mobile application using PhoneGap that tracks daily intake of calories, fat, protein, etc
- Utilized Firebase NoSQL cloud database to store different foods and their nutritional values
- Applied Watson Visual Recognition to distinguish the different ingredients from a picture of food
- Updated user profiles and goals in real-time

Trump Twitter Analysis ·

Sep 2017 to Oct 2017

- Analyzed data regarding Trump's tweets using the Twitter API, Python, and SciPy
- Transformed data to spot trends, such as which words had the most median retweets
- Visualized data to find patterns, such as the time of day Trump tweets the most

Database · Feb 2017 to Mar 2017

- Constructed a relational database management system
- Accepted SQL commands using a custom-made SQL interpreter
- Used HashMaps, Array Lists, and Java without using the java.sql package
